

2. Camera recording video

2.1. Video recording

Open the camera

```
roslaunch ascamera hp60c.launch
```

Open a new terminal and input,

```
roslaunch ascam_visual record_video.py
```

Press the "q" key to end the recording. The recorded video file is saved in the ~ directory and the file name is ascam.mp4.

2.2. Play the video

```
cd ~/ascam_ws/src/ascam_visual/scripts  
python play_video.py
```
